

# My Sanctuary

Great White

Sometimes I feel the blues all around me  
And sometimes I feel like heartache's my only friend  
Each time I pull this train off its tracks  
It's getting harder so much harder to make it back

And when I feel alone  
You've always been the one  
Always been the one to share the load

You are my sanctuary  
My mother Mary  
And you're everything in life  
Everything I want to be  
Heaven made you for me

I wonder what you see in me my darling  
I wonder what redeeming qualities  
It seems like we've always been together  
Through good time bad times you're still my rainbow's end

And when this old world's got me down  
Trade a smile for a frown  
Yeah you've always been the one who never let me down

You are my sanctuary  
My mother Mary  
And you're everything in life  
Everything I want to be  
Heaven made you for me  
Made you for me

And when I'm feeling down and lonely  
Your love keeps me alive  
And so you know you know you're my one and only  
From the heart I wrote down this song just for you

And when I feel alone  
You've always been the one  
Always been the one to share the load

You are my sanctuary  
My mother Mary  
And you're everything in life  
Everything I want to be  
Heaven made you for me

You are my sanctuary  
You're my mother Mary  
And you're everything in life  
The only one my eyes can see  
Heaven made you for me  
Heaven made you for me  
Heaven made just for me  
Just for me
