

# Step On You

Great White

Brown skinned woman been trading rough, scars across her thigh  
Tell me, little honey, ain't you afraid to die?  
All night long I give it up, I give it to her good  
She likes to be a servant to the kings of Hollywood

Her fascination, ride the wild side, she's so bad, wild soul  
Your explanation isn't going to change my mind  
Try to understand the things that you do but this game is nearly out of time

You think that this is loving  
But, baby, you're just running  
Always up to something  
Girl, you got it coming  
Tell you what I'm going to do  
I'm going to step on you

Hey, hey, hey, now, here it goes, right between the eyes  
Let this be a lesson, a caution to the wise  
Shake, shake, shake, yeah, shake that thing, the devil he don't know  
He's about to get a woman who'll make his bones feel old

Sweetest temptation, oh yeah, your wild side, so bad, wild soul  
A moment's hesitation is a waste of time  
You got to head rush, baby, from all the ties that bind

You think that this is loving  
But, baby, you're just running  
Always up to something  
Girl, you got it coming  
Tell you what I'm going to do  
I'm going to step on you

Baby, this ain't loving  
Nowhere left for running  
Ain't no more discussing  
Can you see it coming?  
Tell you what I'm going to do  
I'm going to step on you

You think that this is loving  
But, baby, you're just running  
Always up to something  
Ain't no more discussing  
Tell you what I'm going to do  
I'm going to step on you

Baby, this ain't loving  
Nowhere left for running  
Girl, you got it coming  
Oh you got it coming  
Tell you what I'm going to do  
I'm going to step on you  
Tell you what I'm going to do  
I'm going to step on you  
Tell you what I'm going to do
