

Back To You

Greg Laswell

I know now you gave your best
That is all I ever really asked
And how it all went down
I'm all through putting all of that on you

And how I threw myself around
Trying to find the man I am outside of you
And how it goes is like this

All that I am and have these days can all be traced
Back to you

I wonder if my best
Would have ever been enough for you
And how it all went down
I'm all through putting all of that on me

And how I watched you thrash around
Trying to right the wrongs that don't belong to you
Once and for all it's like this

All that I am and have these days can all be traced
Back to you
