Never Coming Down

Guster

Saddle up next to me
We can go kickin' seashells in the sky
My, my, we're never coming down

Open up a box of bees
We can go buzzin' rooftops all night long
We're gone and never coming down

Everybody knows that it's time to disco
Gotta put the chickens in when the sun goes down
Everbody knows when you climb the rings
We dance with the kings and queens
And it's true, I know, we're never coming down

Everybody knows that it's time to disco
Better put the chickens in when the wolves come out
Everybody knows when you climb the rings
You drink with the kings and queens
And it's true, I know, we're never coming down

Away we go, I know, we're never coming down
