

After School

Gyllene Tider

Come on honey gimme lovin'
Make me feel I'm the one
Come on baby a little huggin'
You know school should be fun

Making love after school
I'm so cheap and you're so cool
Doesn't mean that much to you
Making love after school
After school

You go running down the yard
Leaving me now in a car
They'll pick you up at five o'clock
But until then there's no alarm

Making love after school
I'm so cheap and you're so cool
Doesn't mean that much to you
Making love after school
After school
