

(tonight) We Burn Like Stars That Never Die

Hammock

We're all dreaming, We're all dreaming, We could die chasing this feeling...

We're all dreaming, We're all dreaming We could die chasing this feeling...

Don't cry The sky is in our eyes Tonight we burn like stars that never die... Let's go drive And live like we're alive Tonight we are the stars that never die... One day our song will end So now let's just pretend Tonight we burn like stars that never die... So don't cry Heaven is in our eyes Tonight we are the stars that never die...

We're still dreaming, We're still dreaming, We're gonna die chasing this feeling...

We're still dreaming, We're still dreaming, We're gonna die chasing this feeling...

Don't cry The sky is in our eyes Tonight we burn like stars that never die... Let's go drive And live like we're alive Tonight we are the stars that never die... One day our song will end So now let's just pretend Tonight we burn like stars that never die... So don't cry Heaven is in our eyes Tonight we are the stars that never die... Tonight we burn like stars that never die ...
