

# Someone To Love

Havana Brown

Hold me, save me, drive me wild  
I feel like I am home again  
Save myself, redeem my soul  
I'm beautiful at all

Every time I reach for something real  
I stumble, I'm alone again  
My hungry heart gets torn up crying  
But tonight won't leave me lonely

Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love  
We live the moment, this is a chance  
All these emotions, I leave them to you  
Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love

Is there someone you... you...?  
Is there someone you... you...?

Break these arms and make me feel  
The way I've always wanted  
Save me, I've been lost sea  
I'm drowning in the moment

Every time I reach for something real  
I stumble, I'm alone again  
My hungry heart gets torn up crying  
But tonight won't leave me lonely

Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love  
We live the moment, this is a chance  
All these emotions, I leave them to you  
Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love

Is there someone you... you...?  
Is there someone you... you...?  
Is there someone you...?  
Is there someone you...?

Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love  
Give me someone to love, Give me someone to love  
We live the moment, this is a chance  
All these emotions, I leave them to you  
Give me someone to love, Give me someone to love  
Give me someone to love...

Is there someone you... you...?  
Is there someone you... you...?
