

Memories surround them  
Walking through the door  
Smells of dust and summer heat  
Embroidering his thoughts  
The seeing hand  
The face of fate  
The shifting scenes I can't explain  
The crazy fool who screams his pain  
As he tries to cheat life's final game  
Whispering from the balcony  
Fingers in the hall  
The well worn path of alternity  
Appearing here once more  
It's gone now  
It's gone now  
Twist the soul  
Turn Flesh to stone  
The fear and the anger  
Of the lost and alone  
Endless dreams of wasted days  
Slowly fade away  
Laughter echoes bitterly  
There's no need to stay
