Robot

Hawkwind

Nine to five or ten to six, up to the city and back to the sticks

You've got to unwind your mind, you've got to unwind your mind Sit back, switch on, your face has got a twitch on Your fuses are blown out in a double bind Air-conditioned, psycho-analysed, you're very nearly human, You're so well disguised Robot, Robot, you're a Robot, Robot

You're cool when it's warm, you're cold when it's hot Your life is recorded on a micro-dot, Robot, Robot You'd hold the whole world in your metal claws If it wasn't for the three laws of robotics

Automated homunculus, you queue for the paper
You queue for the bus, you're a "good morning" machine
You're a "how are you?" device
Sit back, light up, never put a fight up
Sit there fuming until your face goes green
Air conditioned, and desensitised, you're very nearly human
You're so well disguised
Robot, Robot

You're cool when it's warm, you're cold when it's hot Your life is recorded on a micro-dot, Robot, Robot You'd hold the whole world in your metal claws If it wasn't for the three laws of robotics

I am a robot
I am your slave
I can not harm you
I can only obey
The Three Laws
