

# Desperation

Hawthorne Heights

In my arms you lie  
You're sleeping and you're still  
I'm wide awake because I can't take it  
And this is how I feel  
Set my mind at ease  
I'm worried and upset  
My front door isn't open anymore  
I'll be living with regret

So listen up  
And just let music play  
And if you listen hard enough  
You could hear my say

This is the sound  
Of desperation  
This is the sound  
Of me wearing thin

This is the sound  
Of desperation (desperation)  
This is the sound  
Of me wearing thin

You heard it all before  
Now you'll hear it all again  
I never said I would rather be dead  
But I thought about the end (thought about the end)  
Soon as it's starting over and over  
The night keeps blending in  
The only way I can get through the day  
Is try to make a mence

So listen up  
And just let music play  
And if you listen hard enough  
You could hear my say

This is the sound  
Of desperation  
This is the sound  
Of me wearing thin

This is the sound  
Of desperation (desperation)  
This is the sound  
Of me wearing thin

(This the sound)

So listen up  
And just let music play  
And if you listen hard enough  
You could hear my say

This is the sound  
Of desperation

This is the sound  
Of me wearing thin
