City's Burning

Heart

Young man is angry, girl is afraid She want to get high, He want to get paid

He had to jump up, she had to sit down When they heard those words
About the trouble downtown

He had to shout, she had to cry He wanted to kill, she wanted to die

City's burning Cities burning

Grab for the dial, tune out the fright
But he turns left and she turns right
She look for love songs, he buys the drive
But all they can pull is bad news in tonight

City's burning Cities burning

Ooohh mama tell me what do do Aaahh daddy you better pull us through
