

How Can I Refuse

Heart

1. Wake me up with laughter
Wrap me in your arms
This ain't no morning after
Never been so warm
It didn't take so long
For us to feel this way
Can a good thing last
Longer than a day

R: Where do we take it now
Now that we caught fire
Will something greater grow
Out of this desire
Should I drop my guard
At the risk of being used
The way you do those things to me
How can I refuse

2. I could get addicted
To your energy
The way you take me over
Mmm keeps pulling on me
Our hearts beat together
Our timing is the same
Can I trust my feelings
Save myself the pain

R: Where do we take it now...

We could share the mystery
Spare ourselves the misery
Discover it again every day
We could take love all the way

R: Where do we take it now...

How can I refuse you

How can I refuse you
