

# I Give Up

Heart

I know you got a secret  
That you really don't want to show  
You hid something somebody  
Did to you and you guard it like a lie

And I know what I'm talking about  
'Cause I've seen it leaking out  
But I'm with you baby now  
And I'm not sneaking out

'Cause I know and I feel  
You're not showing me  
How can I change what  
You won't let me see

I give up, I give in, you win this time  
Knowing you means let you go  
I give up, I give in, you win this time  
But don't be long, baby don't be long  
I love you, I love you  
(I love you, I love you)

I know eves droppers might find out  
More than they might wanna know  
Yeah, I know but I feel that you're loving me  
How can I change what you won't let me see

I give up, I give in, you win this time  
Knowing you means let you go  
I give up, I give in, you win this time  
But don't be long, baby don't be long  
I love you, I love you  
(I love you, I love you)  
And I know you, I love you  
(I love you, I love you)

I give up

I, I know you got a secret  
That you really don't want to show

I give up, I give in, you win this time  
Knowing you means let you go  
I give up, I give in, you win this time  
But don't be long, baby don't be long  
I love you, I love you  
(I love you, I love you)  
And I know you, I love you  
(I love you, I love you)
