

What He Don't Know

Heart

He don't know that you been coming around
He don't know that we been out of bounds
The things we do are better left unsaid
'Cause you and me can never keep our heads

What he don't know
Will never hurt him
What he don't know
Is I have changed

It's just a matter of time
Till it all comes down, down, down
'Til he hears
The stories going 'round, 'round, 'round

What he don't know
What he don't know

Baby, I'm open to your every suggestion
Nothing you ask of me is out of the question
Things I wouldn't do, you got me doin'
And oh, what I wouldn't do for you

What he don't know
Will never hurt him
What he don't know
Is I have changed

It's just a matter of time
Till it all comes down, down, down
'Til he hears
The stories going 'round, 'round, 'round

What he don't know
What he don't know

What he don't know
Will never hurt him
What he don't know
Is I have changed

It's just a matter of time
Till it all comes down, down, down
'Til he hears
The stories going 'round, 'round, 'round

What he don't know
What he don't know
What he don't know
What he don't know
