

# That's The Way We'll Always Say Goodnight

Heatwave

In driftin' through memories of all the times we've shared  
Dreaming a thousand dreams that always have you then  
It's funny how there never seems an ending to all the magic things you do  
You're more than all the world, and I've got to tell you girl I love you

So just cuddle up and hold me tight  
That's the way we'll always say goodnight with good lovin'  
Kiss me girl inside your dreams,  
That's the place my heart will always be  
With your love

Knowing you're next to me the second that I wake  
Is all I could ever need to make it through a name  
'Cause even when we never had a dollar  
I can't recall you feeling blue  
You always had a glow  
I want you to know I love you

So just cuddle up and hold me tight  
That's the way we'll always say goodnight with good lovin'  
Kiss me girl inside your dreams,  
That's the place my heart will always be  
With your love

Each moment I'm with you this life outside I've been to  
I know you feel it too  
Go on our love

So just cuddle up and hold me tight  
That's the way we'll always say goodnight with good lovin'  
Kiss me girl inside your dreams,  
That's the place my heart will always be  
With your love

Just cuddle up and hold me tight  
That's the way we'll always say goodnight with good lovin'  
Kiss me girl inside your dreams,  
That's the place my heart will always be  
With your lovin'

Cuddle up and hold me tight  
That's the way we'll always say goodnight  
With my love
