No more wasting time Synchronize Tell them this is mine

Don't
Walk the other way
Tell me you will stay
Give me one more day

So give up, I'm going on
If you stop, it won't change
One of us has lost the feeling
Which of us is not believing now?

You can have it all I don't need it Tell them this is mine Wanting is no crime Happens all the time When it gets you down Rise and leave it Tell them this is mine Push away the stone We are not alone

Look into my eyes And together we will rise Above all we've seen We will realize, synchronize

Tell them this is mine Wanting is no crime Happens all the time

Hold

Touch this hand of mine
Come away and find
What we left behind
So move up, we're going on
To the top, we'll take it
One by one we've got the feeling
Which of us is not believing now?

Look into my eyes And together we will rise Above all we've seen We will realize, synchronize
