

# Black Out

Heidi Montag

You and me are one in the same  
It's the one thing that they can't change  
You and me live for the ride  
I'll take the drop if you're on my side  
I'm hearing them sayin we're wrong for each other  
I'm taking my chances for worse or for better  
Why can't they see some things are meant to be?

Black out the satellite, where should we run to?  
It's gettin physical boy  
And if you want to go somewhere no one can find us  
We can get out of here

Black out the satellite and be my road star  
You wanted anything else so show ya my heart  
Let's leave this city behind us  
We can get out of here

(Let's go)

Underground and get lost with you  
Only way from my point of view  
Leave the rest of them in the dark  
No one has to know where we are  
I'm over the stories that we'll never make it  
When I think of losing you baby I hate it  
Why can't they see it's between you and me?

Black out the satellite, where should we run to?  
It's gettin physical boy  
And if you want to go somewhere no one can find us  
We can get out of here

Black out the satellite and be my road star  
You wanted anything else so show ya my heart  
Let's leave this city behind us  
We can get out of here

Don't know where we'll be tomorrow  
But I know how I feel right now  
They don't have to understand  
But baby if you take my hand...  
(Let's go)

Black out the satellite, where should we run to?  
It's gettin physical boy  
And if you want to go somewhere no one can find us  
We can get out of here

Black out the satellite and be my road star  
You wanted anything else so show ya my heart  
Let's leave this city behind us  
We can get out of here
