

Nabataea

Halloween

Way back in time was a nation sublime
For they had what it takes to lead a good life
Foemen belieed it's because of some secrets
They brought the fight and it never ended

Hush, don't cry
Deep in the night come the raiders
Shiver and pray
Petra will fall to the Great

Oh Nabataea
You came so far
Now gone you are
Oh Nabataea
You morning star
Now so afar
Nabataea

People desire and people admire
Some always try to reign with fire
So are the seals, hence the old Nabateans
Have disappeared under the wire

Hush, don't cry
Deep in the night come the raiders
Shiver and pray
Petra will fall to the Great

Oh Nabataea
You came so far
Now gone you are
Oh Nabataea
You morning star
Now so afar
Nabataea

Petra, you were a shining star
Unique in your time
Petra, 2000 years on we still
Suffer the same crimes
Petra, today we're trying hard
To reach your paradigm

We say no
To the ultra-extreme
No
To the killers of dreams
No
No!

Children, children have no fear
Soon we all will disappear
Children, children don't you cry
Make no sound or we will die

Once there was a land midst of the chaos
Floating like and island in old blood

People lived in peace, there was no hunger
Though they had no slaves, beleieve it or not
Once there was a nation without soldiers
Never brought a war to the other lands
They lived without king or queen or ruler
Once there was the first democracy

Oh Nabataea
You came so far
Now gone you are
Oh Nabataea
You morning star
Now so afar
Oh Nabataea
Oh Nabataea
