

Spread your mind the fish feed  
Don't ignore my speech my  
Heart bleeds  
Make yourself the perfect butt  
Some passing thought, I don't know what

Don't remind me, I'll take  
What I need to

Get back in case the door swings and  
Don't forget to hide  
Your mood rings  
Fit to tie  
I thought I knew good company  
I'd like to be you

You're right behind me and  
Mouth all I read

Don't remind me, I'll take  
What I need to  
You're right behind me and  
Mouth all I read
