## Smart

Hey, it's late I can barely see straight You're barely standing out You talk, you feel You wanted something that's real I am pretending now I know that you're smart You mentioned it before You can read and write I bet baby, you perform Aim low You just met me I know But I feel something right now So aim low Just let yourself go All I need is tonight yeah Tonight could be kept between You and me I don't need to know your name You aim is off Just boys in here and they're soft I'll give you something to tame I know that you're smart You mentioned it before You can read and write I bet baby, you perform Aim low You just met me I know But I feel something right now So aim low Just let yourself go All I need is tonight yeah
