

Silent Films

Her Space Holiday

(1, 2, 3, 4)
I think it's unfair
The only time I go away
Is the only time you care

I think tonight
I'll take a drive by your house
And look for you inside the light

You don't see the point
Preparing for the end
You've made all these plans
You put all your friends
In silent films

I think it's so sad
The only thing you talk about
Is how other people make you mad

You don't see the point
Preparing for the end
You've got all your plans
You put all your friends
In silent films
