

The New Kid Revival

Her Space Holiday

You've got your pen and pencil
I'm in a paper dream
You should come write all over me and we'll give them something
to read

You've got your words of wisdom
I've got a few chords to play
We should borrow a microphone and put it all down to tape

So let's start the new kid revival
We'll make it up as we go along
And if they tell us that we're doing it wrong
We'll just turn up the sound
We'll just turn up the sound of our songs

You've got five feet of fabric
I've got a needle and thread
We should print out a page of patterns and make a room full of
friends

I've got my old beat up camera
You've got a fresh roll of film
We should paint out a bunch of backgrounds and shoot a box full
of stills

So let's start the new kid revival
We'll make it up as we go along
And if they tell us that we're doing it wrong
We'll just turn up the sound
We'll just turn up the sound of our songs

It doesn't matter if we're making them money
It doesn't matter if we're making their list
All that matters is we keep on dancing to the beat of our home
made hits

So let's start the new kid revival
We'll make it up as we go along
And if they tell us that we're doing it wrong
We'll just turn up the sound
We'll just turn up the sound of our songs
