Look to You

Hillsong United

I know You love
me I know You died for me
I know You care
I know You care

I know You live again Your life for all my sin Now I stand here in In Your grace again

As I look into the sky above
Wonder how my life has changed
Wonder how Your love, it came to me
As I look into the sky above
All my fears, so far away
All I hear is heaven calling me

So I look to You So I look to You No one else will do No one else will do
