

Nothing Like Your Love

Hillsong United

Love unchanging
God Your mercy never fades and I'm surrounded
By Your compassion and Your grace

Your love brighter than the sun
More beautiful than words could ever say
This endless light shining over all
It leads me to Your glory everlasting

In Your kindness
For the broken and the lost
You gave Your only son to bear my shame upon the cross

Your love brighter than the sun
More beautiful than words could ever say
This endless light shining over all
It leads me to Your glory everlasting

Your love amazing
Fills my heart and I sing out
There is none like You
There is nothing like Your love
