

Small Town

Hoodie Allen

She in the city, but
She from a small town
High heels, tall shots
Make her fall down
Up late, now she running with the fast crowd
But she call me every night before she pass out

I don't wanna waste my time with
Girls who rolling they eyelids
Girls who looking for a place to stay
'Cause they came away from Long Island
I don't wanna make your mind up
I'm just tryna make you mine quick
But ever since I put you in my line-up
All I do is choke: Heimlich

Good girl in a bad dress
But ain't nothing really changed but your address
You in the Upper West Side
You were thinking other people that never would've accepted all your assets.
But I'm cash cheques and you cash poor
I'm a give you anything that you ask for
You a small town girl but you living in the city
So you always keep your heart near your passport

You ain't fooling us
You from a Small Town
You ain't fooling us
You from a Small Town

I don't know what's next for us
But every time I talk it's like I messed it up
People wanna tell me that I'm too honest
Walking on eggshells, two omelets
And I know that it's hard 'cause you left your town
Dad don't call like he let you down
You don't wanna talk when the sun is out
But if we get a little drunk, then it's all allowed
And the truth comes down, it's pouring pouring
Bout to drop bombs like Warren Moon
Color of your skin be orange, orange
Aren't you the girl that I met last June?
Who was so damn fun man, where did she go?
On vacation: Puerto Rico
Grand Theft Auto when your heart like Niko
Trying to meet your mother like I'm Jason Segel

You ain't fooling us
You from a Small Town
You ain't fooling us
You from a Small Town

I can take you anywhere on a map
I can make it all good, you can make me come back
You keep moving, I can find you on a map
I can take you back home, you can make me come back
You in Atlanta, but you from a small town

You in Chicago, but you from a small town
You move to L.A., but you from a small town
You live in Brooklyn but I know you from a small town

You ain't fooling us
You from a Small Town
You ain't fooling us
You from a Small Town

Yeah, all across the globe
Uh, and every town you know
Yeah, you ain't foolin' us
