

# New Year's Day

Hootie & The Blowfish

From the second that you walked in, everything around me changed

Though I don't know where you've been, I know I'll never be the same

Hear the heartbeat in my chest, makes me feel I'm bulletproof  
Whatever happens is worth the risk, I got a feeling, you feel it too

Come on baby, let me take your breath away  
Forget about our worries that was yesterday  
Make a toast to all those champagne castaways  
Come on babe, let's kiss just like it's New Year's Day

Yeah, you're in my wildest dreams, you're living in my favorite songs

Every time you look at me, I can't help it you turn me on

Come on baby, let me take your breath away  
Forget about your worries that was yesterday, oh, oh  
Take a trip to all those champagne castaways  
Come on babe, let's kiss just like it's New Year's Day (oooo)  
Like it's New Year's Day (oooo)  
Just like it's New Year's Day (oooo)

Hold on to the moment babe, kiss me like it's New Year's Day

Come on baby, let me take your breath away  
Forget about our worries that was yesterday  
Make a toast to all those champagne, champagne castaways, oh  
Come on babe, let's kiss just like it's  
Kiss just like it's New Year's Day (oooo)  
Oh, oh, just like it's New Year's Day, aw (oooo)  
Just like it's New Years, New Year's Day  
Come on babe, let's kiss just like it's New Year's Day
