

Say (Half Past Nine)

Hot Chelle Rae

Well I've got the ticket
We're out of time
Go ready or not it's a half past nine, half past nine
And this city is red
There's nothing left
No looking back and no regrets, no regrets
Take my hand
This train won't wait for you
Well I'll do anything if I can make you
Come away with me and don't waste time
Say, say that you're leaving with me
Say, say that you're coming with me tonight
Could be the night
We'll be just fine
Say, say that you're leaving with me
Say, say, say that you're coming with me
And let's change the pace, you pick the place
Make up your mind it's a half past nine, half past nine
And let's take a chance, we've come this far
A motion picture romance
The world is ours, world is ours
Well take my hand
This train won't wait for you
Well I'll do anything if I can make you
Come away with me and don't waste time
Say, say that you're leaving with me
Say, say that you're coming with me tonight
Could be the night
We'll be just fine
Say, say that you're leaving with me
Say, say, say that you're coming with me tonight
Coming with me tonight, coming with me tonight, coming with me
tonight, coming with me tonight
It's now or its never, I won't wait forever
I know this is right
Let's let love live our lives tonight
Come away with me and don't waste time
Say, say that you're leaving with me
Say, say that you're coming with me tonight
Could be the night
We'll be just fine
Say, say that you're leaving with me
Say, say, say that you're coming with me
Say, say, say that you're coming with me
