

## Mystery Boy

Hot Snakes

We pretend and bleed fake  
There's nothing left for you to take  
Let it hurt, let us feed  
I don't care 'cause I don't need  
Now he's gone, but there he is  
We dug him up and now he digs in

Are you?  
Mystery Boy  
Born without a choice  
Mystery Boy  
Face without a voice

Let us steal and never make  
Ride the lie until it breaks  
Sorry and diligent  
Sift through bones finding mistakes  
Apologize and bury us deep  
Punished to stir in our sleep
