

In Spirit Golden

I Blame Coco

Fall into flames and you won't do it again
You've learnt a lesson you've never been taught so
Crawl into blame that you will never reclaim
It's a blessing that you'll never get caught, oh

But underneath we are golden
Hold them, we made them
Our hearts beat, control them
They're too fast
Too fast for me tonight

I've seen souls in spirit golden
I've seen souls in spirit gold
Now I've cleaned myself from that unsettling light
It was too bright for me and the love of my life
But if you capture me I'll be within your sight
It was too bright for me
It was too bright tonight

Before the insults and post the praise
You are the subject of a sugarcoat crosshair
During the shellshock of a crystal maze
You are important at your opening funfair

However underneath we are golden
So hold them, we saved them
Our hearts beat, control them
They're too fast
Too fast for me tonight

I've seen souls in spirit golden
I've seen souls in spirit gold
Now I've cleaned myself from that unsettling light
It was too bright for me and the love of my life
But if you capture me I'll be within your sight
It was too bright for me
It was too bright tonight

Here by a circus on this moonlit night
With the lukewarm light
It's not too frightening
Here by a settle at the starboard side
If you only vouch for me
On this golden night
On this golden night

Oh my burning eyes see souls in spirit golden
I've seen souls in spirit gold
Now I've cleaned myself from that unsettling light
It was too bright for me and the love of my life
But if you capture me I'll be within your sight
It was too bright for me
It was too bright tonight
