

# As They Burn Alive

I Declare War

It's a lovely night  
For something to go wrong  
Can't you see those clouds?  
They are spelling disaster  
This will be your last night on earth  
This night will not be forgotten  
Until everyone lies dead

As the angels lay broken beneath the ashes

MASSACRE

Watch the people  
As they burn alive  
For freedom  
Watch the people  
As they burn alive  
For fucking freedom
