

# Man vs. Machine

Ice Cube

Yo, we in a fight for our lives  
We in a fight for our lives  
And the trick thing about it  
I don't know if we can win  
And what's sad? I don't thing we WANNA win

Can you help me? a n-gga need a job  
I'm desperate, for some corn on the cob  
I'm helpless, will I have to steal and rob?  
No black? dinner so I got to ask bob  
Bob got a job but it's done by a robot  
No lunch breaks so it could do a whole lot  
More than a human being and it's European,  
Ran by a Korean, American,  
So there I am, surrounded by aluminum  
There's no way you can run,  
There's no way you can be,  
It's just and me, versus modern day machinery

It's man vs machine baby  
My head's in the guillotine baby  
It might take it off clean baby  
Automated dreams it was man vs machine baby

I'm a fly caught in the web  
A fish stuck in the internet  
Don't they know I'm a deathly catch?  
Eat this meat, every bite so full of stress  
So what can I say to you?  
I'm highly relatable and biodegradable  
I thought we was unfadeable  
Slaves to machinery, is that the way to go?  
I don't need you to f-ck 24/7  
I guess that computer love  
I don't need you to love  
Human contact ain't what it used to was

It's man vs machine baby  
My head's in the guillotine baby  
It might take it off clean baby  
Automated dreams it was man vs machine baby

The whole world is automated  
It need to be investigated  
When people are eliminated  
What we supposed to do when it's time to feed all the babies?
