

# This Is a War

Ignite

Staring down the wrong way of a one way track  
Crashing down behind us but we won't look back  
We won't look back

There is a war on the concept of truth  
Where the politicians stand on the backs of the youth  
Get in, get sold out, get out of the way  
The sheep have been slaughtered and silenced today

Close your eyes cause you don't want to see the truth  
Don't take action just wait for the nightly news

This is a war  
Where we bury the truth  
If there's no reaction there's nothing left to do but stay down  
There'll be nothing left for me and you

Each liberation's a license to steal  
But don't be concerned your salvation is near  
There's a new day that's coming get out from the cold  
Defend the system for blood and for gold

Close your eyes cause you don't want to see the truth  
Don't take action just wait for the nightly news

This is a war  
Where we bury the truth  
Destruction for even more to consume  
This is a war, a war against you  
If there's no reaction there's nothing left for you so stay down  
There'll be nothing left for me and you

The deceptive lies the media wage  
That brings destruction to this foreign place  
We light the fire, then investigate  
They turn the skeptics into the slaves  
We wake up to find that our freedoms have been removed  
So were calling for action  
Before there's nothing left to hold on to

This is a war  
Where we bury the truth  
Destruction for even more to consume  
This is a war, a war against you  
If there's no reaction there's nothing left for you so stay down  
There'll be nothing left for me and you
