

Don't die for me  
Don't cry for me  
Don't justify my life  
I could not exist for you  
I could not exist in you

So bleed for me  
Don't beg for me  
Don't justify my life  
I could never sin for you

Point the faces you think break you  
Point the faces you

This overrate she's by defection and  
You don't even know my name  
You still want my oppression  
By exemption, by affection  
And you don't even know my name  
Will you help me to stop the bleeding  
(The bleeding)x3  
Don't lie for me  
Come lie with me  
Don't justify my life  
I can never bleed for you  
Now or never bleed for you  
Lies for me survive for me  
Don't justify my life  
I do not exist in you

Point the faces you think break you  
Point the faces you

This overrate she's by defection  
And you don't even know my name  
You still want my oppression  
By exemption by affection  
And you don't even know my name  
Will you help me to stop the bleeding?
