

Winter Fling (demo Version)

Ima Robot

Will you be my winter fling
Now that summer's warmth is gone?
I'll be yours right up 'til spring
Hold me tight all winter long
It's true-- LA don't get cold
Not like New York or Chicago
But that chill has still crept in
So will you be my winter fling?

Will you be my winter fling
Now that summer's warmth is gone?
I'll be yours right up 'til spring
Hold me tight all winter long

The Santa Ana's kicked their last winds today
The warm jets have all been turned off
All the strong things I said in May
The summertime sun must have burned off
And now September clouds my mind
My heart longs for you again
Blame it on natural design
Will you be my winter friend?

Will you be my winter fling
Now that summer's warmth is gone?
I'll be yours right up 'til spring
Hold me tight all winter long

Will you be my winter fling
Now that summer's warmth is gone?
I'll be yours right up 'til spring
Keep me warm until I get strong

Will you be... winter fling
Will you be... winter fling
Will you be... winter fling
Will you be... winter fling
Will you be... winter fling
Will you be... winter fling
Will you be... winter fling
It's cold! Brrrr!
So cold!
Will you be my winter fling?

Will you be my winter fling
Now that summer's warmth is gone?
I'll be yours right up 'til spring
Hold me tight all winter long

Will you be my winter fling
Now that summer's warmth is gone?
I'll be yours right up 'til spring
Hold me tight all winter long
