

Start Over

Imagine Dragons

Clenched teeth, no words
All this distance taking its toll
Speaking volumes
Silence screaming over your words
I never did you right, I know that
Too many sleepless nights, I own that
I said it time and time, I know that
I wanna try again

Can we start over?
Can we start over?
Can we start over
Before it's over, over?

Cold nights, cold sheets
One more lonely empty hotel room
What I'd give to
Find my way back into you
I never did you right, I know that
Too many sleepless nights, I own that
I said it time and time, I know that
I wanna try again

Can we start over?
Can we start over?
Can we start over
Before it's over, over?
Can we start over?
Can we get closer?
Can we start over
Before it's over, over?

Come alive, come alive, come alive again
Come alive, come alive, come alive again
Come alive, come alive, come alive again
Come alive, come alive, come alive again

Can we start, can we start over?
Can we start over?
Can we start over
Before it's over, over?
Can we start over?
Can we get closer?
Can we start over
Before it's over, over?
