

# Entanglement

Imogen Heap

Here we are  
Blood pressure rising fast  
Air electric  
Conduct this orchestra

A micro utopia born  
As the overture plays  
This prelude to life long love  
Our bodies entanglement takes  
You all over me  
Me all over you

Fearless heart  
I'm gonna take care of you  
Whether spark or spiral  
I'll pull the strength of suns

It's home where you hold me  
So show me no mercy  
On islands of cotton  
Taboos get forgotten  
Our body entanglement wants  
You all over me (me, me, me)  
Me all over you (you, you, you)  
You all over me

Oh, burst me into bloom I dare you to  
Lose yourself in our embodiment  
Ravage this palate of pinks and reds and  
Dissolve into radiance

It's home where you hold me  
So show me no mercy  
On islands of cotton  
Taboos get forgotten  
Our body entanglement wants  
You all over me (me, me, me, me, me)  
Me all over you, you, you, you  
You all over
