

You can be white  
I can be brown again  
We have to go hide  
Because your mothers in town again

And I wanna take you home  
Cause I wanna take you back

I'm on the ground  
Your in the air again  
Releasing the hounds  
You wanted a harlequin  
And I wanna take you home

And I wanna take you back  
(sugar sugar sugar)  
I'm cutting the wire  
There's nobody listening  
Slashing the tires  
Made you late for the christening

And I wanna take you home  
And I wanna take you back  
And I wanna take you home  
And the screen turns to black

Its hot, its warm, its cool, alright  
I kiss you take another bite  
You said to stay away from light  
Down here I'm not afraid of height

And I wanna take you home  
Cause I wanna take you back  
And I wanna take you home  
And the screen turns to black.
