

Cut It Out

Indigo Girls

I'm sitting in Darwin's Theory
You're down in the 48s
I'm practicing politics
You're practicing guitar an staying out late
How'd we get so turned around
Why did we make it so hard
Can't we cut it out we're tender
Give us something good to remember

Hey my my my rock star
I saw your feet leave the ground
You said all I wanna be is loud
How'd you get so turned around
Why did you make it so hard
Can't you cut it out I'm tender
Give me something good to remember

I said cut it out
Cut it all out

Well it's Alaska in the summertime
In the wintertime I'm free
The days are short cold and wasted
Nowhere is warm enough for me
Baby can you tell me what happened
Why did I make it so hard
Why can't I cut it out you're tender
Give you something give you something good to remember

Baby you tell me what happened (why did we make it so hard)
How did i make it so hard (can you tell me what happened)
Cut it out i'm tender (why did we make it so hard)
Give me something give me something good to remember (why did we make it so hard)
(Why did we make it so hard) (can you tell me what happened)
(Why did we make it so hard) (can you tell me what happened)
(Why did you make it so hard) (Can you tell me what happened)
(Why did we make it so hard) (Can you tell me what happened)

I said cut it out
Cut it all out

Cut it out
Cut it all out

Cut it out (hey my my my rock star)
Cut is all out (how did we get so turned around)
Cut it all out now (hey my my my rock star)
Cut it all out now (hey my my my rock star) (how did we get so turned around)
Cut it all out now
Cut it all out now (hey my my my rock star)
