

Raise your hands
Raise your hands high
Don't take a seat
Don't stand aside
This time
Don't assume anything
But go go go

I am a problem child
I've been wild all my days
All my anger and my rage
My senses said it would lead me astray
I said go go go

Raise your hands
Raise your hands high
Don't take a seat
Don't stand aside
This time
Don't assume anything
This time
Don't assume anything
I said this time
Don't assume anything

One two three four
Jump jump jump so high
Watch me let you down
If I stumble I will stumble
If I fall I will fall
Try to hold it like rain in the river
But everything is getting bigger
Better this won't last forever
Touch me and fall
Yeah
