

## Repetition

### Information Society

I'm coming back to you  
Just like before  
I've been a lonely boy  
Since I walked out your door  
If there's a life for us,  
I don't know  
But I can't live like this  
Anymore

The time I spend alone has nothing to give  
It's repetition  
I'm coming back to you  
Repetition  
The only thing I can do

I'm coming back to you  
This time to stay  
If I've learned one thing  
It's that I can't stay away

The time I spend alone has nothing to give  
The life I lead alone has nowhere to live  
It's repetition  
I'm coming back to you  
Repetition  
The only thing I can do

And I can still recall  
How you would hold me  
The way a vast wave  
Broke so slowly

It's repetition  
I'm coming back to you  
Repetition  
The only thing I can do  
Repetition  
And we can see this through  
It's repetition  
I'm coming back to you
