

## Your Smiling Face

Ingram Hill

The weather says the sun won't shine  
And I've arrested my free time  
No bottle here to ease my mind  
My rationale has just run wild

But when I see your smiling face  
I know I would not trade my place  
I tell you girl I'm so in love with you

Sometimes I think that you don't see  
The difference between you and me  
Sometimes you got to let me be  
I know the truth will set you free

But when I see your smiling face  
I know I would not trade my place  
I tell you girl I'm so in love with you

I've been where the sun don't shine  
I've been arrested once or twice  
A bottle's helped me lose my mind  
I've seen it done a thousand times
