

## The way the light falls

Inspiral Carpets

Some days I see only evil in the world  
Some days I see everything  
Good days I see beauty in  
Just the way the light falls on your face  
Look what it's doing to me  
See what this monster is doing to me

Some days I see cynics in sequins  
Some days in the mirror I see  
There's good intention in the words that I speak  
Though the mind is willing the muscle is weak  
Look what it's doing to me  
See what this monster's doing to me

You'll be on my mind I'll be on the phone  
You deserve better than this we both know  
Thanks for giving me so many chances  
Thanks for giving me so many chances

See the smile on the new music pages  
Now his face is all of the rages  
Hey pretty satellite sing me a tune  
The one I love is the man on the moon  
Look what it's doing to me  
See what this monster's doing to me

You'll be on my mind I'll be on the phone  
You deserve better than this we both know  
Thanks for giving me so many chances  
Thanks for giving me so many chances
