## Institute

Save the robots
Save yourselves
Keep your head to the future boy
For everything it's worth

I didn't mean to collide with you We fell so far from earth

No guru No system No mantra

Save the robots
Save your friends
Try a little selfless
Try whatever works

No guru No system No mantra No mantra

So don't you try me You'll never find me I was here before You're never found me then

No guru
No system
No mantra
No mantra
No mantra
