

# Mountain Child

Interpol

Mountain child  
Up in the trees like a heathen  
Running wild  
A scrape on your knees from the descent

Are you out of your head  
Why you out of my bed now  
Mountain child with your star  
Won't you come along with me

Mountain child  
The snake in the reeds had me reeling  
The smoke in the sky is clear in your eye  
It's a lean prophecy that I'm reading

Are you out of your head  
Why you out of my bed now  
Mountain child you are my queen in white  
Won't you come along with me

Show me what it is  
What you use it for  
I've seen you so high like a meteor  
Show me what it is  
What you use it for  
I watch it roll by like a cannon ball  
Up the range  
We can try to hike for days  
Show me what it is  
What you use it for  
And come along with me

I wanna live at home but this time keeps moving backwards  
No one will ever know that my mountain child is strange  
And I'm a kind of hero

Hero  
We used to rule back then  
What did we used to rule back then
