Interpol

Day by day  
We watch the gold bar  
Saved by fame  
I see You and you're going far  
You're truly at the door  
Of some great, admiration

Oh, what a sweet serenade  
And the night is still young for love  
Oh, there's a flood coming soon  
and this rush hits me just like a

Last friday I seen You in the photo booth  
You changed your name  
The screen really takes to you  
Yeah, You're really breaking through  
On some great accolades

Oh, what a sweet Saturday  
And the night is still young for love  
Oh, there's a flood coming soon  
and this rush hits me just like a

A tidal wave, a tidal wave  
A tidal wave, a tidal wave

Oh, there's a flood coming soon  
And the night is still young for love  
Feel the tug of the moon  
Completely gone on

A tidal wave, a tidal wave  
A tidal wave, a tidal wave  
A tidal wave, a tidal wave  
A tidal wave, a tidal wave  
A tidal wave, a tidal wave  
A tidal wave, a tidal wave
