Michael Jackson

Just Good Friends

I watched you on the floor Cheek to cheek She's getting to you You didn't see Her eyes on me, no She looked right through you Before you make A big mistake remember That looks can fool you, baby There's somethin' I would sure appreciate If you can keep a secret

Baby loves me but she never shows she cares No, you won't see her kiss and hug me Baby loves me though she acts like I'm not there That doesn't mean she doesn't love me ooo If they ask her tell 'em that we're just good friends Just good friends Doot do doo doo Just good friends

You better take advice Never trust, first impressions I tried to hide this affair From their suspicions So even if she's askin' you to stay You better know where you stand

Baby loves me though she never shows she cares No, you won't see her kiss and hug me My baby loves me though she acts like I'm not there That doesn't mean she doesn't love me ooo Now if they ask you jus' tell 'em that we're just good friends Yes, just good friends Root do do do do doo doo Just good friends

Listen up We've got a problem here, I can see the signs I guess the lady is still makin' up her mind Say we're just good friends

Baby loves me though she never shows she cares No you won't see her kiss and hug me My baby loves me though she acts like I'm not there You doggone lover Don't you wanna know? My Baby loves me though she never shows she cares She doesn't kiss and hug me My baby loves me she love me, she love me ... Just good friends Baby loves me she love me, she loves me she loves me
