Come On Come Over

Jaco Pastorius

Come on, come over
As fast as you can
You're afraid that you won't like it
But you don't understand

One thing, my brother
I can tell you true
The more time you spend feeling happy
The less time you'll be blue

Come on, come over Everyone's waiting on you We're wondering when you'll get tired Of wondering what to do

There is something here that cannot be denied Get on the floor, get on down Don't knock it until you try

Come on, come over
The pleasure is all mine
Music's playin', the door just opened
You don't have to stand in line

People of the world Have been uptight far too long While you're busy making stands Everybody's making plans To move on, move right along
