

Jus Not Ready ft T Coles

Jaden Smith

You remember... last november
Or was it october? Year was over
Oh this getting colder
It's the middle of December and as they was turnin wheels were burning
And I was yearning for you
Girl, I'm usually a playa but tonight I'm turning for you
Girl I couldn't even speak that night
You remember I had to bitch that night
There was no one on the street that night
Rolled up, I was looking like a truth that night
Then you came inside my tinted, come and get me in
And you whispered in you as if I
Ready and there wasn't a girl

All I wanna do is take my time with you
So if this love is true
Then you ain't for the 2 of us

All I wanna do is take my time with you
So can we keep it cool?
Cuz baby this is new

Wanna be my girlfriend on my level but I'm just not ready
Wanna be my girlfriend on my level but I'm just not ready
Wanna be my girlfriend on my level but I'm just not ready
Oh no I'm just not ready, oh no I'm just not ready

Girl you bout to give me in some drama
Feelin like a storm comin
And I know you're dealing with these problems
And I know there's more coming
And you doing how you can
Hope you know I really understand
I just gotta be the realest while I can
Cuz it's a little joke as chance
Things spread like cancer
On the Kansas City girl
Let's ride
Take her to the spot on the top and we never gonna stop
Show me what you got
Never gonna dry
No, but we never gon stop
Cuz someone that make you last
Don't worry bout them jokers in the class cuz he always talkin trash
I'mma put him in the past
In a Beemer and I kinda got it going really fast

All I wanna do is take my time with you
So if this love is true
Then you ain't for the 2 of us

All I wanna do is take my time with you
So can we keep it cool?
Cuz baby this is new

Wanna be my girlfriend on my level but I'm just not ready
Wanna be my girlfriend on my level but I'm just not ready

Wanna be my girlfriend on my level but I'm just not ready
Oh no I'm just not ready, oh no I'm just not ready

I'm cool as the wind blows
Please open up a window
Cuz it's hot in here
And it's cold when you're not in here
Your body ridin, got a headache
I'mma lay you down cuz my body ain't heavy
Girl you should drop it like it's hot cuz I'm ready
And I'mma lean it, but only if you're runnin.. no
Come into my villa like get it
You can be my Krugger like Freddy
Cougar, you ready?
Some you can show me
You can be my friend
You can be my homie
You can call me homie cuz I'm really lonely
And we could do a fire so we could do it slowly all day.. crap
You don't even know me, on Twitter call me a phony
When it's time you gone, passing your pony up

All I wanna do is take my time with you
So if this love is true
Then you ain't for the 2 of us

All I wanna do is take my time with you
So can we keep it cool?
Cuz baby this is new

Wanna be my girlfriend on my level but I'm just not ready
Wanna be my girlfriend on my level but I'm just not ready
Wanna be my girlfriend on my level but I'm just not ready
Oh no I'm just not ready, oh no I'm just not ready
