Give Me Forever (i Do)

James Ingram

Looking out, I see and I know just how much you're a part of me. I see you and I, together in life so there's nothing I wouldn't do, to make you my wife.

Won't you give me forever to show all of the love I have here for you. And if you give me my reason for living to love you, I love you, I do.

With this ring, I'm bound.

And I'll promise that I'll never let you down.

To family and friends and the Lord above,

I will swear I'll be true to you,

to give you my love.

Won't you give me forever to show all of the love I have here for you. And if you give me my reason for living to love you, I love you, I do.

Oh baby, I love you, forever and ever I do.

Won't you give me forever to show all of the love I have here for you. And if you give me my reason for living To love you, I love you, I do.

To love you, I love you, I do.

To love you, I love you, I do.
