Little butterfly come back to me Everything that I want written on your face I want it, I want it (2x)

So take me where you want to It's your love that I chase I want it, I want it (2x)

Now you got something
I want it, I want it
So beautiful
I want it, I want it
And the way you move me baby
Its like no other girl
I want it, I want it (2x)

Butterfly that came and butterfly in June So colour in my wings
And let me hold your hand
I could be the sun and you could be my moon But all you ever say is catch me if you can Feel like a butterfly
Searching in the summer sky
A perfect love so hard to find

Little butterfly come back to me (4x)

Honey you pushing a condition But I don't mind I want it, I want it (2x)

I think you're my addiction
But that's alright
I want it, I want it
That's alright
I want it, I want it
You've got to slow down
I can't keep up with you
I want it, I want it
No no no All the other butterflies
They don't love like we do
I want it, I want it (2x)

I feel like I'm a butterfly in June
So colour in my wings and let me hold your hand
I could be the sun and you could be my moon
But all you ever say is catch me if you can
Feels like a butterfly
Searching in the summer sky
A perfect love so hard to find
Little butterfly come back to me (4x)
